———. The same. Editio novissima, cæteris longe auctior et perfectior. 6 p. l., 933 pp., 1 l., 4 tab., 105 l., 1 pl. 8°. *Lugd. Bat., S. Luchtmans*, 1735.

———. The same. 6 p. l., 1015 pp., 128 l., port. 8°. *Lugd. Bat., S. et J. Luchtmans*, 1756.

———. The same. The physical dictionary, wherein the terms of anatomy, the names and causes of diseases, chyrurgical instruments and their use, are accurately describ'd; also the names and virtues of medicinal plants, minerals, stones, gums, salts, earths, etc.; and the method of choosing the best drugs; the terms of chymistry and the apothecaries' art; and the various forms of medicines and the ways of compounding them; with the addition of many thousand terms of art and their explanation; also a catalogue of characters used in physick, both in Latin and English, engraved in copper. 4. ed. 1 p. l., 334 pp., 2 pl. 8°. *London, S. Crouch [and others]*, 1702.

Blancard (Stephen)—continued.

———. The same. The 7. ed., with the addition of many thousand terms of art and their explanation (from the last and best edition of Castellus's Lexicon medicum and other authors), more than in any former impression. Also a catalogue of the characters us'd in physick, both in Latin and English, curiously engrav'd on copper. 3 p. l., 370 pp. 8°. *London, for J. & B. Sprint*, 1726.

———. The same. Arzneiwissenschaftliches Wörterbuch worin nicht nur die zur Heilkunde gehörigen Kunstwörter, sondern auch die in der Zergliederungskunst, Wundarzneikunst, Apothekerkunst, Scheidekunst, Gewächskunde u. s. w. gebräuchlichen Ausdrüke deutlich bestimt und kurz erklärt werden. Nebst dem ist die Abstammung ursprünglich griechischer Wörter fasslich auseinander geseczt, und die holländische, französische, englische und andere Benennungen beigefügt, womit über dies noch die vollständigsten Register verbunden sind. Neu bearbeitet nach der neuesten Isenflammischen Ausgabe und mit der nach alphabetischer Ordnung eingerükten kurzen Geschichte der berümtesten Aerzte, nebst der Anzeige der vorzüglichsten Schriften derselben und vielen andern Zusäzen vermehrt. 3 v. 8°. *Wien, G. P. Wucherer*, 1788.

———. Nauwkeurige verhandelinge van de scheur-buik en des selfs toevallen. Als ook een naakt vertoog wegens de fermentatie oft innerlijke beweginge derlighamen, meest op de gronden van Descartes gebouwt. 2 pts. in 1 v. 3 p. l., 226 pp.; 158 pp., 10 l., 5 pl. 16°. *Amsterdam, J. ten Hoorn*, 1684.

Bound with his: Het gast-huis der zieken [etc.]. 18°. *Amsterdam*, 1690.

———. Verhandelinge wegens de fermentatie oft innerlijke beweginge der lighamen, meest op de gronden van Descartes gebouwt. 158 pp., 10 l., 5 pl. 16°. *tot Amsterdam*, [1684].

Forms part of preceding, but with separate title-page and pagination.

———. Verhandelinge van het podagra en vliegende jicht; waar in des zelfs ware oorzaak en zekere genezingen werden voorgestelt. Als ook een korte beschrijvinge van de krachten des melks, toonende dat des zelfs voedsel, zoo voor gesonde als ongesonde (voornamelijk in het podagra) zeer dienstig is. Item de Chinese en Japanese wijse om door het branden van moxa en het steken met een goude naald, alle ziekten en voornamelijk het podagra te genesen. Door W. ten Rhyne. 5 p. l., 301 pp., 9 l. 16°. *Amsterdam, J. ten Hoorn*, 1684.

———. Anatomia practica rationalis, sive rariorum cadaverum morbis de natorum anatomica inspectio. Accedit item tractatus novus de circulatione sanguinis per tubulos, deque eorum valvulis, etc. 10 p. l., 321 pp., 6 l. 16°. *Amstelodami, C. Blancardi*, 1688.

———. Venus belegert en ontset, oft verhandelinge van de pokken, druipers, chankers, klapooren, en des selfs toevallen, met een grondige en zekere genesinge steunende meest op de gronden van Cartesius. Item een nauwkeurige beschryvinge der pokken door de Heeren F. Sylvius, T. Sydenham, I. Wierus, en A. Everaars. 2. ed. Frontisp., 2 p. l., 456 pp., 3 l., 8 pl. 16°. *t' Amsterdam, T. ten Hoorn*, 1688.

———. Het gast-huis der zieken, bestaande in verscheide medicinale gevallen in practyk, alle volgens de redeneringe der philosophie opgelost. Waar in kortbondig de genesingen dies aangaande voorgestelt werden, welke een jong practizyn van noden heeft. Nevens een aanhangsel van verscheide medicinale consultatien, door brieven geschreven, rakende de praktyk der medicyne. 3 p. l., 407 pp. 16°. *t' Amsterdam, T. ten Hoorn*, 1690.

Blancard (Stephen)—continued.

———. Anatomia reformata, sive concinna corporis humani dissectio, ad neotericorum mentem adornata. Editio novissima . . . Accedit ejusdem authoris de balsamatione nova methodus, a nemine antehac similiter descripta. 5 p. l., 759 pp., 9 l., 67 pl. 12°. *Lugd. Bat., C. Boutestein, J. Luchtmans*, 1695.

———. The same. De nieuw hervormde anatomie ofte ontleding des menschen lighaams. Gebouwd op de waaragtigste en naukeurigste ondervinding deser eeuw. Zynde met een groot getal kunstige platen op nieuws verciert. Als ook een verhandelinge van het balsemen der lighamen. Nooit voor desen dusdanig bekend gemaakt. 3. druk. 5 p. l., 761 pp., 9 l., 57 pl., port. 8°. *Amsterdam, J. ten Hoorn*, 1696.

———. The same. Reformirte Anatomia, oder Zerlegung des menschlichen Leibes gebauet auff die wahrhafftigsten und neuesten Erfindungen dieser Zeit und . . . mit eben desselben Autoris Abhandlung von dem Umlauff des Geblüts durch die Fibras derer Musculen und derselben Valvulen, etc., vermehret, und so wohl nach dem holländischen, als lateinischen Exemplar mit Fleiss in das Hoch-Teutsche übersetzet durch Tobiam Peucerum. Frontisp., 6 p. l., 1070 pp., 23 l., 50 pl. 4°. *Leipzig, J. L. Gleditsch*, 1705.

———. Die neue heutiges Tages gebräuchliche Scheide-Kunst, oder Chimia nach den Gründen des fürtreflichen Cartesii und des Alcali und Acidi eingerichtet. 179 pp., 5 l. 16°. *Hannover u. Wolffenbüttel, G. Freytag*, 1697.

———. Den Neder-Landschen herbarius ofte kruid-boek der voornaamste kruiden, tot de medicyne, spys-bereidingen en konst-werken dienstig, handelende van zommige hier te lande wassende boomen, kruiden, heesters, mossen, enz. Frontisp., 2 p. l., 621 pp., 13 l., 37 pl. 12°. *Amsterdam, by J. ten Hoorn*, 1698.

———. Een nette verhandeling van de legerziekten als mede van de scheeps-ziekten. Behelzende een kort vertoog van alle ziekten, welke, zoo in de legers, als lange scheeps-vaarten voorvallen: waar in haare oorzaken en genezingen bondig vertoond werden. Item met een lijst van onbederfelijke medicamenten, waar van men zig te water, te lande, en te platten lande af kan bedienen. 3 p. l., 195 pp. 16°. *Amsterdam, by J. ten Hoorn*, 1703.

———. Neue und besondere Manier alle verstorbene Cörper, mit wenig Unkosten, dergestalt zu balsamiren, dass solche in etlichen hundert Jahren nicht verwesen, noch Farbe und Gestalt verlieren können. Wie denn auch dabey communiciret werden, unterschiedliche Recepten, köstliche wohlriechende Poma Ambræ oder Bysamknöpff, Rauch-Kertz- und Küchlein und wohlriechende Seiffen-Kugeln zu machen, zur sonderbahren Curiosität mitgetheilet und aus Holländ. in unser Muttersprach übersetzt von G. A. M. 96 pp. sm. 8°. *Hannover u. Wolffenbüttel, G. Freytag*, 1705.

Blondus [**Biondo**] (M. A.)—continued.

———. De cognitione hominis per aspectum; opus vere, in hoc genere compendiosum, aliis etiam præstantius, quia et distinctius, et accuratius, et uberius scripsit cæteris, colligens quicquid, cum Arist., tum Hypp., vel Gal., cum aliis testamentis sparsim omiserint, addens de maculis totius corporis, quod apud Latinos physionomantes adhuc relictum testamento non probatur, cupientibus vivere absque periculo malorum valde necessarium. 36 ff. sm. 4°. *Romæ*, 1544.

———. Compendiosa de medicamentis, quæ apud pharmacopolas comperiuntur, quorum usus est Romanis, tam in propellendis languoribus, quam in servanda sanitate, inque noscendis empiricis, et methodicis medicis non minus utilis, quam necessaria. 27 ff., 1 l. 24°. *Romæ*, 1544.

———. Ex libris Hyppocratis de nova et prisca arte medendi, deque diebus decretoriis epithomæ ad honorem Dei, et utilitatem generis humani, lucido perornatæ sermone, et clarissimis sententiis Hyppocraticis; nunc primum vigilantibus expositæ. 31 l. 24°. *Romæ*, 1544.

Bound with his: Compendiosa de medicamentis [etc.]. 24°. *Romæ*, 1544.

———. De memoria libellus, in quo non tam dogmata quam et præsidia præstantissima narrantur, cum horis mercurialibus, quibus omnibus servatis, et compressa excitatur, et firma solatur, procul dubio et diuturna servatur memoria prudentium. 20 ff. 16°. *Venetiis, per J. A. et P. fratres de Nicolinis de Sabio*, 1545. [P., v. 951.]

———. De anima dialogus, in quo priscorum falsæ damnantur opiniones, philosoph., et veræ narrantur, deque eius infusione, in embrionem, vera demostratione, et omnibus aliis, quæ ad animam spectare videntur, cum arboribus vegetativæ, sensitivæ, et quoque intellectivæ, nunc primum in lucem æditus. 15 l. sm. 4°. *Romæ*, 1545.

Bound with his: De cognitione hominis [etc.]. sm. 4°. *Romæ*, 1544.

Rooke (C.) Anti-lancet; or the destructive practice of bleeding, etc., exposed and denounced. Showing the principles of life and death, and the origin of all diseases; with a description of the most efficacious medicines ever made known to the world for their relief and cure. 8°. *Scarborough*, 1867.

Bloodletting (*Abuse of, and controversies on*).

Roosenburg (J. G.) *Diss. inaug. sistens problemata de usu et abusu venæsectionis. 4°. *Lugd. Bat.*, 1817.

Rotario (S.) Lettera [intorno all' uso del salasso]. 8°. [*Verona*, 1699.]

———. Ragioni contra l' uso del salasso, fondate non solo su le dottrine degli antichi e moderni scrittori, ma tratte eziandio dalle ragioni medesime colle quali pretende sostenerlo l' autore della medicina ventilata. 12°. *Verona*, 1699.

———. Ragioni contra l' uso delle ventose e delle sanguettole, tratte dagli sperimenti filosofici e dalle osservazioni nuovamento avute in notomia. 8°. *Verona*, 1701.

Rouge (L.) Inutilité et dangers de la saignée. Considérations générales, théoriques et pratiques sur la valeur des émissions sanguines dans le traitement des maladies, et sur le moyen de les remplacer. 8°. *Genève*, 1863.

Scheffel (C. S.) [Pr.] de hostibus venæ sectionis. [Cum vita candidati Johannis Caspari Scheuring.] 4°. *Gryphiswaldiæ*, [1747].

Severinus (M. A.) Seilo-phlebotome castigata sive de venæ salvatellæ usu et abusu. 4°. *Hanoviæ*, 1654.

Stubbe (H.) A Bacon-face no beauty: or, a reply to George Thomson, pretender to physick and chymistry, whereunto is added a defence of phlebotomy in general, and also particularly in the plague, small-pox, scurvey, and pleurisie, in opposition to the same author, and the author of Medelæ medicinæ, Doctor Whitaker, and Doctor Sydenham; also a relation concerning the strange symptomes happening upon the bite of an adder, and a reply, by way of preface, to the calumnies of Eccebolius Glanvile. sm. 4°. *London*, 1671.

———. An epistolary discourse concerning phlebotomy, in opposition to G. Thomson, pseudo-chymist, a pretended disciple of the Lord Verulam, wherein the nature of the blood and the effects of blood-letting are enquired into and the practice thereof experimentally justified (according as it is used by judicious physicians) in pest and pestilential diseases, in the small pox, in the scurvey, in pleurisies, and in several other diseases. sm. 4°. [*n. p.*], 1671.

Thomson (G.) Galeno-pale: or, chymical trial of the Galenists, that their dross in physick may be discovered, with the grand abuses and disrepute they have brought upon the whole art of physick and chirurgery in their method touching phlebotomy and purgation, [etc.]. 12°. *London*, 1665.

Vaidy (J. V. F.) *De usu et abusu venæ sectionis. 4°. *Parisiis*, [1803].

Vulpinus (J. B.) Hæmophobiæ triumphus: sive Erasistratus vindicatus: ubi veterum phlebotomiæ scopi ad Trutinam revocantur, aliaque scitu digni-sima ad præsentis sæculi mentem exponuntur. 16°. *Lugduni*, 1697.

Watts (G.) A dissertation on the ancient and noted doctrine of revulsion and derivation; wherein the absurdity of the principles, on which the notion of revulsion was originally founded, is evidently demonstrated, and the immediate consequences of blood-letting plainly proved, [etc.]. 8°. *London*, 1754.

———. A letter to Dr. Frewen, author of a late tract on inoculation, on occasion of his very extraordinary behaviour to the author in the late unhappy case of Mr. Rootes, surgeon, in which the doctrine of bleeding near the part affected, recommended in a late dissertation on the subject of revulsion and derivation, is further insisted on; comprizing what the author

Bloodletting (*Abuse of, and controversies on*).

has to offer more in support of that doctrine, and necessary to be bound up with that performance. 8°. *London*, 1755.

———. The same. Ed. tertia. 7 p. l., 362 pp. 12°. *Parisiis, G. Cavelier*, 1736.

———. The same. De viribus medicamentorum: or, a treatise of the virtue and energy of medicines, containing an ample account of all medicines whatsoever, whether physical or chirurgical, internal or external, with their several qualities and proper doses; as also mathematical observations on the nature of solids and fluids, with respect to human bodies; with an accurate account of the properties of the blood, of its consistency, and laws of motion; the whole being interspers'd with many curious remarks never before publish'd. Written in Latin by . . . 15 p. l., 328 pp. 12°. *London, J. Wilcox*, 1720.

———. Historia plantarum quæ in horto academico Lugduni-Batavorum crescunt, cum earum characteribus et medicinalibus virtutibus. 1 p. l., 698 pp., 7 l. 16°. *Romæ, apud F. Gonzagam*, 1727.

———. The same. Editio novissima, aucta, et ab infinitis mendis purgata, et indice accuratissimo aucta. 2 v., paged consecutively. 1 p. l., 696 pp., 15 l. 16°. *Londini*, 1738.

———. Libellus de materia medica et remediorum formulis, quæ serviunt aphorismis de cognoscendis et curandis morbis. Ed. altera, emendatissima. 6 p. l., 259 pp., 22 l. 16°. *Lugd. Bat., apud I. Severinum*, 1727.

———. The same. Praxis medica Boerhaaveana, being a compleat body of prescriptions adapted to each section of the practical aphorisms of . . . To which is annexed: Methodus præscribendi formulas, secundum Archibaldum Pitcarnium. 4 p. l., 136 pp. 12°. *London*, 1716.

Boerhaave (Hermann)—continued.

———. Praxis medica, sive commentarium in aphorismos de cognoscendis et curandis morbis. 5 v. 16°. *Petarii, J. Manfrè*, 1728.

———. Sermo academicus, quem habuit, quum, honesta missione impetrata, botanicam et chemicam professionem publice poneret. 38 pp. 4°. *Lugd. Bat., apud I. Severinum*, 1729. [P., v. 1268.]

———. Elementa chemiæ, quæ anniversario labore docuit in publicis privatisque scholis. 2 v. 4 p. l., 896 pp., 20 l.; 2 p. l., 538 pp., 23 l., 17 pl. 4°. *Lugd. Bat., apud I. Severinum*, 1732.

———. The same. Elements of chymistry, faithfully abridg'd from the late genuine edition, publish'd and sign'd by himself, at Leyden. To which are added, curious and useful notes, rectifying several opinions, etc., of the learned author, by a physician. vi, 208, 17 pp., 5 l. 8°. *London, J. Wilford*, 1732.

———. The same. A new method of chemistry, including the history, theory, and practice of the art. Transl. from the original Latin: Elementa chemiæ. To which are added notes, and an appendix shewing the necessity and utility of enlarging the bounds of chemistry. 3. ed. xxx, 593 pp., 9 pl. 4°. *London, T. & T. Longman*, 1753.

———. Opuscula omnia quæ hactenus in lucem prodierunt; ea quidem prius sparsim edita, nunc vero in unum collecta atque digesta. 1 p. l., 139 pp. 4°. *Hagæ-Comitis, J. Neaulme*, 1738.

———. Prælectiones academicæ in proprias institutiones rei medicæ edidit, et notas addidit Albertus Haller. 6 v. in 4. 16°. *Gottingæ, A. Vandenhoeck*, 1740–44.

CONTENTS.

v. 1. Chylificatio. 2. ed. 1740.
v. 2. Arteria, cor, pulmo, sanguis, glandula cerebrum. 1740.
v. 3. Lien, hepar, renes, musculi, cutis, nutritio. 1741.
v. 4. Sensus externi, interni, somnus. 1743.
v. 5. Pt. 1. Respiratio, loquela, semen masculinum. 1744. Pt. 2. Menstrua, conceptus. 1744.
v. 6. Pathologia, semeiotice, hygiene therapeutice. Accedit index totius operis. 1744.

———. The same. 6 v. in 7. 16°. *Gottingæ, A. Vandenhoeck*, 1744–8.

CONTENTS.

v. 1. Chylificatio. 2. ed. 1745.
v. 2. Arteria, cor, pulmo, sanguis, glandula, cerebrum. 2. ed. 1745.
